

Hear from those who have walked in the shoes.....

A unique presentation developed for the general public to hear trained speakers share their personal stories of living with mental illness and achieving recovery. Break down the stigma of mental illness, raise awareness and hear inspirational stories.

Active in over 40 states, In Our Own Voice is a dynamic presentation where audience members are encouraged to offer feedback and ask questions. The more you ask, the more you learn!

Presentations allow speakers to gain confidence in themselves and often serve as a role model for many who need to find help for themselves or a loved one.

Who knew that forty-five minutes to one hour could matter so much for so many. We do. Let us show you how.
